

Preacher Man

Canton Jones

Chorus

Mr. preacher man I don't want no trouble
I just came to praise and worship with my brothers
Prayin' to the Lord and hopin' He forgive us
I woke up the same, just don't want these streets to kill us Verse 1

Mr. preacher man please don't be alarmed
We just come to pray, we don't mean no harm
I see how you lookin' of course we aint perfect
We figured it that if we came to see Jesus it would be worth it
We live up the block and I know you've seen us,
Running from the cops
Always this senseless killing, we want it to stop
We want you to know sir that if you don't let us in
we've got no place to go sir

[Chorus]x2 Verse 2

I'm the preacher man Bible in my hands
I'm so glad that you all came to church today my friend
And yes, you all are welcomed as we seek His face
Here we like the organ, I know you like bass
That's okay we love the same God
We may dress a little different but love the same God
and our issues may be different, but love the same God
We want you to know sir that we'll love you, not judge you I want you to grow sir [Chorus]x2
