

Neon Angels On The Road To Ruin

The Runaways

No one here gets out alive
Pushing power in overdrive
Cobra kings wet and wild
Love the devil that's in your smile
Let me tell you what we've been doin'
Neon angels on the road to ruin
Let me tell you what we've been doin'
Neon angels on the road to ruin
Everybody who's ever on fire
Now's the time for hearts desire
Let me tell you what we've been doin'
Neon angels on the road to ruin
Highways hard in this modern world
Battered boys and shattered girls
Leather bombers that rule the streets
Setting fires and living heat
Let me tell you what we've been doin'
Neon angels on the road to ruin
