

Everything

Collective Soul

With the faces I now wear
It's only proof my thoughts
Have become impaired
And the courage I shall build
Stands at distance still
Everything is physical
Everything takes precedence
Everything's admissible
Everything is evident
And this comfort I've designed
Will only stay intact until
The truth I find
And as some answers fly around
No cure have I found
Everything is physical
Everything takes precedence
Everything's admissible
Everything is evident
Guide me, save me, teach me
I need to learn from this
Hold me, soothe me, my love
My love
The reflection I now see
Is always trying to blind
And discourage me
But my patience shall prevail
And my self as well
Everything is physical
Everything takes precedence
Everything's admissible
Everything is evident
Everything is comfortable
Everything's a brighter shade
Everything is suitable
Everything is Kool Aid
