

One Through Four

Tripping Daisy

Love makes it good to be free
Well, I'll take it shorter
Now if I had the time to
Well, I'd make it longerOne makes it two to find the three
To change my four, it's over
Now if I had the chance
I'd do it again and make you warmer thanSurprise, you make me get away slow
So you'll pull me back
You make me get away, oh
And now you want me backLove makes it good to be free
Well, I'll take it shorter
Now if I had the time to
Well, I'd make it longerOne makes it two to find the three
To change my four, it's over
Now if I had the chance
I'd do it again and make you warmer thanSurprise, you make me get away slow
So you'll pull me back
You make me get away, oh
And now you want me backWant me get away, ohLove makes it good to be free
Well, I'll take it shorter
Now if I had the time to
Well, I'd make it longerOne makes it two to find the three
To change my four, it's over
Now if I had the chance
I'd do it again and make you warmer thanLove me through
Love me through
Love me through
Why you wanna wait 'til I stop?
