

Magic Happens

Tomi

oh. this is where the magic happens right here, just you and me
oh. this is where the magic happens right now, i'll make you free

i know you've been lookin for that special place
somewhere quiet where no one can see your face
know you wanna let go and hide from everything
to get away , run away, not stress bout a thing

i know you feel like the world is coming down on you
so here i am, im gonna love you for you (love you for you)
i know you want to be your self just for one day
we can run to the sun, and love the pain away

come with me, im gonna show you where to go, come with me
im gonna love you really slow, come with me, we are gonna walk in your dreams,
im gonna feed your soul and your body

oh. this is where the magic happens right here, just you and me
oh. this is where the magic happens right now, i'll make you free
oh. this is where the magic happens right here, just you and me
oh. this is where the magic happens right now, i'll make you free

come with me, gonna show you where to go and be
gonna love you and set you free, come with me
were gonna walk in your dreams
im gonna feed your soul and your body, your body

oh. this is where the magic happens right here, just you and me
oh. this is where the magic happens right now, i'll make you free
oh. this is where the magic happens right here, just you and me
oh. this is where the magic happens right now, i'll make you free

oh. this is where the magic happens right now, i'll make you free
