

# Paint Me Away

[Nick Fry](#)

Paint me a picture of everything I should be  
I'm so far from your planned masterpiece  
This is my portrait stained like dirty glass  
You are the artist paint away my past

(Chorus)

I need you paint me away, paint me away  
at your feet is where I find grace, where I find grace  
I give my heart, this is the day, this is the day  
I need you, paint me away

Your breath strokes remind me of how your mercies flow  
paint my canvas white like winter snow  
the easel, the showcase, all of my dainted past  
now shows the artwork that will always last (that will always last)

(CHORUS 2x)

---
