Soul On Fire

Ella G'sell

You were born on a black day
Shot through with starlight
And all the angels singing
Just about got it right

Cut through the silver
And goodness did heaven know
I don't know where we?re going
But darling bless your soul

Baby, set my soul on fire.
I've got two little arms to hold on tight and I want to take you higher.
Baby, never should say never.
I've got a hurricane inside my veins and I want to stay forever.

Sweetheart, may not be easy
But we're trying hard to hold on
Trying to make it better
Sweetheart, got so much freedom
But freedom is just another word
When you've no-one left to hurt.
and i said

Baby, set my soul on fire.
I've got two little arms to hold on tight and I want to take you higher.
Baby, never should say never.
I've got a hurricane inside my veins and I want to stay forever.

Baby, set my soul on fire.
I've got two little arms to hold on tight and I want to take you higher.
Baby, never should say never.
I've got a hurricane inside my veins and I want to stay forever.

I've got two little arms to hold on tight and I want to stay forever.

I've got a hurricane inside my veins and I want to stay forever.
