

# You Are My Hero

Dennis Jernigan

I've seen you standing alone and face the fight  
When others laid their weapons down and headed for home  
I've seen you face the fire and come out shining like gold  
And I want you to know

I've seen you lay visions down for someone else  
And give your life a sacrifice no fanfare allowed  
I've watched to weather storms that would have left others drowned  
And this is what I've found

You are my Hero  
My knight in shiny armor  
A warrior of God's grace  
Standing alone faithfully  
You are my Hero  
You're a light that pierces darkness  
With love that's not afraid to fight for someone like me  
Encouraging me to stand firm and free  
You are my Hero (You are my Hero)  
You are my Hero (You are my Hero)

I've seen you look down the road and see beyond  
For miles and head for truth and faith while bearing the load  
I've heard your anguished cries for grace and watched joy unfold  
And I want you to know

You are my Hero  
My knight in shiny armor  
A warrior of God's grace  
Standing alone faithfully  
You are my Hero  
You're a light that pierces darkness  
With love that's not afraid to fight for someone like me  
Encouraging me to stand firm and free

I've seen you face death with a deep burning faith  
That stirs up the passion in me  
Your hearts like a fire abounding in grace  
A beacon helping others to see

To help them be free

You are my Hero  
My knight in shiny armor  
A warrior of God's grace  
Standing alone faithfully

You are my Hero (You are my Hero)

You're a light that pierces darkness

With love that's not afraid to fight for someone like me

Encouraging me to stand firm and free

You are my Hero (You are my Hero)

You are my Hero (You are my Hero)

You are my Hero (You are my Hero)

You are my Hero (You are my Hero)
