

# Simple Like the Truth

Darius

I love you, you love me  
But you never say that to me  
I want you, you want me  
So how come I don't believe? It's in the way you kiss my face  
And in your every move Won't you tell me something simple like the truth  
Even if it isn't I love you  
Won't you let me know your heart  
And lay me down, is it so hard to tell me? "It's nothing, don't be stupid"  
How come you always say that to me?  
"It's alright, take it easy"  
But easy is so hard to be It's in the way you brush me by  
The way that you make love Won't you tell me something simple like the truth  
Even if it isn't I love you  
Won't you let me know your heart  
And lay me down, is it so hard to tell me? It's not that I'm weak, baby, I can't take it  
It's not that I'm blind, I can see you fake it  
If you only knew what I'm going through  
You'd find the words to whisper  
Or you'd find the strength to leave Tell me something simple like the truth  
Even if it isn't I love you  
Won't you let me know your heart  
And lay me down, is it so hard to tell me? Won't you tell me something simple like the truth  
Even if it isn't I love you  
Won't you let me know your heart  
And lay me down, is it so hard to tell me?  
Why is it so hard to tell me? I watch you, you're reading  
But, baby, you're so hard to read  
I love you, you love me  
But you never say that to me
