Hummingbirds The Size Of Bullets

Kill Hannah

and my skin she said it shakes
so hard the gears are falling off
and the walls, they seem to jump out of place
and fly like kites in outerspace
and we're running out of here
prepared to throw ourselves off somewhere
i'm lightheaded and can't explain
i'm lightheaded and can't explain
and my stomach, it feels like
hummingbirds the size of bullets are caught inside

and the walls, they seem to burst thru the planes
and fly like kites thru outer space
and we're running out of air
prepared to thro ourselves off somewhere
i'm lightheaded and can't explain
i'm lightheaded and can't explain
and my skin she said it shakes
it's hummingbirds the size of space
