

Halo

Sounds Under Radio

Christmas lights around my neck... they shine
Like broken angles in the night... sky
Self-inflicted wounds that heal in time
Casting halos in her eyes.
In her eyes
In her eyes.... Yeah
In her eyesHeadlights streaming on the road
I breathe in something, that she knows
I would love her, it begins
Casting out, the halo spins.
The halo spins
The halo spins... Yeah
The halo spinsThe halo spins, on... (x3)
The halo spins, Oh no
The halo spins, on...
Halo spins, on...
Halo spinning 'round you... soon
We'll see it... Yeah...Halo spins, on... (x2)
Halo spinning 'round
It's spinning 'round...
Spinning 'round, here...
On...
On and on...
On and on...
