

Paradise

[Novaspace](#)

Can't sleep tonight
I'm still waitin'
For a wonder soon to happen
And I pray Is there anyone out there ?
I need consolation
Why can't I still be with you I thought it was paradise
When I found you
Paradise -
Have I been wrong ?
I thought it was paradise
But I've been mistaken
You left me here all alone
Can't see the light
And I'm losin'
Any hope, there's nothing that I haven't tried
Is there anyone out there
To relight the fire ?
Why don't you give me a sign ? I thought it was paradise
When I found you
Paradise -
Have I been wrong ?
I thought it was paradise
But I've been mistaken
You left me here all alone
