INTRO

For all the ladies, that's handling their business out here.
Do ya thing ma... Do ya thing ma..

CHORUS

(It's kinda live) The way you show how you feel
(It's kinda live) The way you wear jeans and heels
(It's kinda live) The way you smile when i'm home
(It's kinda live) The way you sound on my phone
(It's kinda live) The way you get mad and curse
(It's kinda live) The way you memorized my verse
(It's kinda live) The way you trust what i said
(It's kinda live) The way you work that in bed
(It's kinda live) The way you do what you do
Hold up girl let me talk to you

VERSE 1

You me us just think
I smoke trees you drink
I touch you and you wink
But hold up, cause you ain't hearing me girl
I say let's leave here and go chill
And you nod yes it's so real
Cause you felt me with no deal
And that's why i keep you in my world
Cause you got me it's no lie
And what we have won't die
Cause you got me so high
Baby girl i must admit your thorough
When i touch your thighs
You get that look in your eyes and..

CHORUS

(It's kinda live) The way you show how you feel
(It's kinda live) The way you wear jeans and heels
(It's kinda live) The way you smile when i'm home
(It's kinda live) The way you sound on my phone
(It's kinda live) The way you get mad and curse
(It's kinda live) The way you memorized my verse

VERSE 2

When i'm mad i think of your face
And what we did at your place
When you said go at your pace
I sat back and let you control it
But things move fast without force
And you let nature take course
Then we stripped down and got lost
In the moment cause we could not hold it
And you told me of your past
And how he did you so bad
And your pain made me so mad
I wish that i could've met you sooner, but
Things work out in due time
And now i'm on your mind and..

CHORUS

(It's kinda live) The way you show how you feel
(It's kinda live) The way you wear jeans and heels
(It's kinda live) The way you smile when i'm home
(It's kinda live) The way you sound on my phone
(It's kinda live) The way you get mad and curse
(It's kinda live) The way you memorized my verse
(It's kinda live) The way you trust what i said
(It's kinda live) The way you work that in bed
(It's kinda live) The way you do what you do
Hold up girl let me talk to you
