

# Lifter

## Edgewater

Down a road less traveled  
And I see my purpose in front of me  
And it's simple and It's gentle I foundDown a road less traveled  
And I feel my conscience running deep  
And it's simple but it's mental I foundAnd I'm never looking back  
No I'm never looking back  
No I'm never looking back againWe all fall down  
Time keeps changing  
We all will hit the groundDown a road less traveled  
And I see my world beneath my wings  
And it's simple but it's crippled I foundDown a road less traveled
