

# Kiss Me Again

Elizabeth Cook

I'm not prepared,  
I'm nervous and scared  
lets take off our masks  
I've got something to ask  
will you kiss me again  
just like you did back then

Oh I'd never guessed  
this beat in my chest  
is gonna stop time  
when your lips meet mine  
and you kiss me again  
just like you did back then

Cause tomorrow we could  
both be swept away  
so lets make love  
like its our last chance today

Letters been long  
words have been strong  
if it's courage you lack  
you know I'll love you back  
when you kiss me again  
just like you did back then

cause tomorrow we could both  
be swept away so lets make love  
like its our last chance today

your hands on my face  
a moment of grace  
it makes me feel young  
this song being sung

so kiss me again  
just like you did back then

so kiss me again  
just like you did back then

---
