

Sugar and Riley

Ray Bonneville

Sugar and Riley had a lover's fight
Heard'em right through the wall last night
Things got said, tears got cried
It came to ahead just before midnight
But when the morning came they were doing alright
Sugar told Riley you drive me insane
You wont see it my way when your mind is made
Don't get me going, I know what you're like
You say you love me but I wonder sometimes
Where the morning came they were doing alright
Riley told Sugar _____
You know you can be so cold
You turn away for no reason at all
I want to love you but you want me to crawl
When the morning came they were doing alright
When the morning came they were doing alright
Making love again in the morning light
Sugar told Riley I ain't your fool
Don't go thinkin' that I won't leave you
Riley told Sugar you make my blood boil
Why you want to drive away all our joy
But when the morning came they were doing alright
When the morning came they were doing alright
Making love again in the morning light
Making love again in the morning light
