

# Supergirl

## Michael Schulte

There's so much to do  
What ever it is you'll see it is you'll it through  
    Baby it's your world  
        Supergirl  
    Baby take your time  
You'll figure it out with your beautiful mind  
    I'm living in your world  
        Supergirl  
    You've come so far in so little time  
        Look how much you've grown  
    I watch you struggle, I watch you try  
        Try to make a life of your own  
    So let the tears falling down your face  
    Water your dreams, they won't go to waste  
        There all yours baby  
        There is so much do  
    Whatever it is you'll see it through  
        Baby it's your world  
        Supergirl  
    You made me believe in me  
    Showed me something that I never saw  
        You've forever teaching me  
        You're a never-ending waterfall  
        I'm in love....and your sacrifice  
    So the ones you love have a better life  
        And I thank you baby

    There is so much to do  
    Whatever it is you'll see it through  
        Baby it's your world  
        Supergirl  
    Baby take your time  
You'll figure it out with your beautiful mind  
    I'm living in your world  
        Supergirl  
    With everything you do  
    I'm always so amazed by you  
I wouldn't want to live a day without my super girl  
    There's much to do

Whatever it is you'll see it through  
Baby it's your world  
Super girl  
Baby take your time  
You'll figure it out with your beautiful mind  
I'm living in your world  
Supergirl  
(There's much to do) You'll do it all  
Whatever it is you'll see it through -yes you will  
Baby it's your world  
Super girl
