

You Can Not Cage the Wolf

Venkman's Ghost

We're at it again
We're here to steal your soul
We're all liquored up
But still, we're ready to go
I'm chasing the dream
Never tame the beast
So hungry inside and it's ready to feast

Music is calling
I read you loud and clear

You cannot cage the Wolf
Or leave it in delusion
You cannot cage the Wolf
Or leave it in seclusion

Oh, the tables have turned
We've sifted through the dirt
In search of the diamond buried in the earth
We're ready to go
We're hitting that stage
Remember the name, we're Venkman's Ghost

Music is calling
I read you loud and clear
You cannot cage the wolf
Or leave it in delusion
You cannot cage the wolf
Or leave it in seclusion.

And if you wouldn't mind,
I would like to find....
The reasons for my violence,
The pieces of my innocence

You cannot cage the wolf
You cannot cage the wolf
You cannot cage the wolf

You cannot cage the wolf

Or leave it in delusion
You cannot cage the wolf
Or leave it in seclusion, yeah!
