

Free Chilly

Lupe Fiasco

If we can break down those walls to set you freeee
We would, cause we out here
And we miss you
If we could build a ladder that tall to come and see yooooou
We would, cause we down here
And we miss you

If we can break down those walls to set you freeee
We would, cause we out here
And we miss you
If we could build a ladder that tall to come and see yooooou
We would, cause we down here
And we miss you
