

Children Of The Sun

Tinie Tempah

Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know Yeah Yeah Yeah Yeah Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know Lay down your head
You're not alone
Anywhere you go, I follow
We are the children of the sun
That's all you need to know
