Everything I Shouldn't Be Thinking About

Thompson Square

My motorcycle needs an oil change
Fence needs mending, house needs paint
I got a million things that need to be done but
Baby I can only focus on oneThe way you're looking back at me right now
I'm thinking about everything I shouldn't be thinking about
You're playing with my mind, baby ain't no doubt
I'm thinking about everything I shouldn't be thinking about
You're everything I shouldn't be thinking aboutBaby you've always had a one track mind
So what you're saying ain't no surprise
What may come as a shock to you
Is that I'm having all those little thoughts too yeahThe way you're looking back at me right now
I'm thinking about everything I shouldn't be thinking about
You're playing with my mind, baby ain't no doubt
I'm thinking about everything I shouldn't be thinking about
You're everything I shouldn't be thinking aboutBaby since you and me are on the same page
Let's do something 'bout it, what do you say?The way you're looking back at me right now
I'm thinking about everything I shouldn't be thinking about
You're playing with my mind, baby ain't no doubt
I'm thinking about everything I shouldn't be thinking aboutThe way you're looking back at me right now
I'm thinking about everything I shouldn't be thinking about
You're playing with my mind, baby ain't no doubt
I'm thinking about everything I shouldn't be thinking about
You're everything I shouldn't be thinking about
