

# Don't Take Your Love Away

## Coko

Darkchild 99, uh  
You feel that, I like that  
Coko, uh huh  
Bigga, uh, uh, check it out, come on Don't take your love away and make me lonely  
'Cause I need you here with me to make me happy  
My heart belongs to you, you're my everything  
And I love the joy you bring to me, baby I think about all the times you're here with me  
And when you come around, no one else can compete  
'Cause I love you so much, you're all that I need  
And without you there's no me, so don't you leave, yeah 'Cause I need your love to stay  
(Stay right here with me)  
That's the way it's got to be  
(I need it, I need it) Never take your love away  
(It belongs to me)  
Promise you'll stay here with me  
(Oh, whoa) Don't take your love away and make me lonely  
'Cause I need you here with me to make me happy  
My heart belongs to you, you're my everything  
And I love the joy you bring to me, baby I don't wanna think of you, not here with me  
I cannot imagine what my life would be  
So baby, just stay right here with me, yeah, yeah  
Yes, you and me, that's the way it's got to be, yeah 'Cause I need your love to stay  
(Stay right here with me)  
That's the way it's got to be  
(I need it, I need it) Never take your love away  
(It belongs to me)  
Promise you'll stay here with me  
(Oh, whoa) Don't take your love away and make me lonely  
'Cause I need you here with me to make me happy  
My heart belongs to you, you're my everything  
And I love the joy you bring to me, baby
