

I Want to Be Loved

Prozzak

I want to be loved
Just like everyone I know
I want to be home
Tired of being so alone And everybody thinks I'm so strong
Baby living this life alone
But don't you think that I could be lonely
Somebody fill this empty hole I don't want it
I don't need it
I think, I feel it again I want to be loved
Just like everyone I know
I want to be home
Tired of being so alone And everybody thinks it's so easy
Fool me with feelings never changed
But try to let me search for a reason
We'll wake up and start a brand new day Don't wanna hear about it?
I've got myself
Don't wanna feel it again? I want to be loved
Just like everyone I know
I want to be home
Tired of being so alone And everybody thinks I'm so strong
Baby living this life alone
But don't you think that I could be lonely?
Somebody fill this empty hole
