

Summer Love

[Andy Williams](#)

Summer love, who will be your summer love
Like I was last summer
Sharing every moment of
Things we did last summer Who will be satisfied
Just to be by your side?
Who will kiss you, hold you tight
Two silver silhouettes
In the summer moonlight? Will you walk along the beach
Like we did last summer?
Counting stars way out of reach
Like we did last summer Will you tell your heart, beware
This is just a summer affair?
Or will you fall in love for keeps
Like I did last summer?
