

I'll Remember Why

Uptown Vocal Jazz Quartet

How many years ago was it we met...
And lasted till now?
How many tears ago was it?
And yet, weve passed it somehow
This test of a lifetime
Staying afloat when things go wrong
Now in the best of my life Im
Forgetting the notes but not the song.
I dont remember the moments you might want me to
Or see you with a sentimental eye
I dont remember the day I fell in love with you
But Ill always remember why. How many years from now will I
Still be the light in your eye?
Youll be the light in mine till I
Cant see the sun or the sky
And there, even then, Love
No matter what else I cant recall
No matter the where or the when, Love
Ill know that I loved you with my all
I dont remember the things we used to say or do
To make the rainy days go by
I dont remember the day I fell in love with you
But Ill always remember why.
Till the end of my life
Ill remember why.
