

Move Over Ms. L

Keith Moon

Well, now the underground and overjoyed, they come out just the same

Don't wanna get to real man, just wanna play the game

I guess, you knew it all along we was singin' in the rain

Can't get to hipped to the down trip, the ship is sailin' yet

And if it sinks you know that all you really get is wetMove over Ms L

You know, I wish you well

Move over Ms L

You know, I wish you well

Move over Ms LNow to err is somethin' human and forgivin' so divine

I'll forgive your trespasses if you forgive mine

Life's a deal you knew it when you signed the dotted line

They nail you to the paper put a rope around your neck

And so we sing along the boy stood on the burnin' deckMove over Ms L

You know, I wish you well

Move over Ms L

You know, I wish you well

Move over Ms LWell, now momma, poppa told me son, you better watch your head

Your head is full of snakes boy, you're better red than dead

They're starvin' back in China that's what they always said

Can't get head in the head shop, your jeans is full of crap

You're full of beans, you're in your teens

You lost your momma's road mapMove over Ms L

You know, I wish you well

Move over Ms L

You know, I wish you well

Move over Ms L

Move over Ms L
