

# I Wish the Best for You

Emerson Hart

How long can we wait here  
To say goodbye  
The words, once they're spoken  
Are words that we can't take

Back to where we were before  
Things got in the way  
Life gets so confusing  
When you know what you're losing

(Chorus)

You, Me, why can't we see  
That there's more to love than we'll ever know  
Sometimes you're closer when you're letting go  
I wish the best for you  
I wish the best for you

We'll both regret the hurting  
That we will do  
You'll learn to forget me  
And I'll try, I'll try to forget

(Chorus)

If you ever need a place that you can run to  
I'll be here, I'll be here

(Chorus)
