

Conspiracy Theory

Nick Jonas & The Administration

Conspiracy theory
Better keep it down
'Cause the walls are thin
And the word is out now Lock your lip
Don't you make sound
'Cause the walls are thin
And the word is out now Better that you didn't know
Better that they didn't show, that's right
Probably need to live in fear
Knowing that the threats are real this time Conspiracy theory
Gonna make you shake
Don't hit the brake
No time to waste now Like it or leave it
Better hit the road
'Cause the one we know
Is gonna fade away now Better that you didn't know
Better that they didn't show, that's right
Probably need to live in fear
Knowing that the threats are real this time Conspiracy theory
Conspiracy theory Conspiracy theory
Better keep it down
'Cause the walls are thin
And the word is out now Lock your lips
Don't you make a sound
'Cause the walls are thin
And the word is out now Better that you didn't know
Better that they didn't show
Probably need to live in fear
Knowing that the threats are real this time
