Secret Army

Cock Sparrer

Collecting funds for the holy fight
Like a door to door salesman in the dead of night
Russian guns help him on his way
Bought with money from the USA[Chorus]
And the ordinary people say what's it for
And the ordinary people say we want no more
But the man at the top knows where to do the most harm
He's in he secret armyAnd this man with a gun says not a sound
I want this aeroplane turned around
He spent his life learning how to fill a man with lead
He'll probably spend the rest of it dead.[Chorus]When a bomb goes off in a city street
When a man gets killed for his beliefs
When a mother cries for the son she had
That's when the world's gone mad[Chorus x2]
