

Sisterly

Fang Island

Sideways, want sideways...
The side you see..
You've got the fire
You've got the fire, sister!
You've got the fire
You've got it further, sister!

so full of dreams...
And I wanna hear the song right now
And I want to feel it alright now
And I wanna ride along right now
And I wanna write the
rhymes right now

You've got the fire
You've got the fire, sister!
You've got the fire
You've got it further, sister!
Do you, do you feel you do
A lot out here
I guess, I guess I'll say this
I've no idea!

You've got the fire
You've got the fire, sister!
You've got the fire
You've got it further, sister!
Let me see that, I wanna see
Let me see that, I wanna see
Let me see that, I wanna see
