

Clean

Opiate For The Masses

Why are you laughing?
Behold
These ears cant hear a thing Why are we crying?
It's been too dry
A tear's a waste of drink I think I'll lie here
And let
Whats left begin to sink Take whats left of me
And just throw it away 'Cuse it's anything else but clean
Take the best of me
And just throw it away Why are we trying?
We know
That this will end the same Why aren't we dying?
It seems
That it's the only way to change Take whats left of me
And just throw it away
'Cuse it's anything but clean
So just throw me away Take the best of me
And just throw it away
'Cuse it's anything but clean
Take the best of me
And just throw it out
Take the best of me
And just throw it away
'Cuse it's anything but clean
Take the best of me
And just throw it away
