Both Feet In The Water

Bad Company

The company I?m keeping, well, it may be bad
But it ain?t bad enough compared to me
So baby, start believing, I?m the best you?ve ever had
Just give me time and I will make you see
Gonna prove you wrong, gonna prove me right
You better make your mind up, it?s gotta be tonight
Baby, baby, baby, I can light your fuse
You ain?t got nothing, nothing to lose, baby
Put both feet in the water
Put ?em in the water, baby
Put your fears in the past
Put ?em in the past, yeah
Forget what people have told you
Don?t listen
If you want our loving to last
I know what you?ve been hearing and it makes me mad
To think that you?d believe so many lies
Girl, I?m gonna tell you one thing, the rumors may be bad
But you ain?t got no right to criticize
Because I heard about you and the things you do
You gotta make your mind up, am I coming through?
So baby, baby, baby, it?s time you made your move
I ain?t got nothing, nothing to prove, baby
Put both feet in the water
Put ?em in the water, baby
Put your fears in the past
Put ?em in the past, yeah
Forget what people have told you
Don?t listen
If you want our loving to last
Gonna prove you wrong, gonna prove me right
You gotta make your mind up, it?s gotta be tonight
I said, baby, baby, baby, baby, baby, gonna light your fuse
You ain?t got nothing, nothing to lose, baby
Put both feet in the water
Put ?em in the water, baby
Put your fears in the past
Put ?em in the past, yeah
Forget what people have told you

Don?t listen
If you want our loving to last
Put both feet in the water
Put ?em in the water, baby
Put your fears in the past
Put ?em in the past, yeah
Forget what people have told you
Don?t listen
If you want our loving to last
Put both feet in the water
Put ?em in the water, baby
Put your fears in the past
Put ?em in the past, yeah
Forget what people have told you
Don?t listen
If you want our loving to last
You?d better listen, baby
