Reload (feat. Dave Gahan)

Junkie XL

I've been watching for some time
Can't believe the lies have spread
See, I can't see the world
It just lumbers in my headSo pick yourself up and dust yourself down
Pick yourself up and dust yourself down
Into your mind, read the signs
Into your mind, read the signs
Reload, reload
Pick yourself up and dust yourselfI've been looking for some time
I knew that I had to be much moreSo pick yourself up and dust yourself down
Pick yourself up and dust yourself down
Into your mind, read the signs
Into your mind, read the signs
Reload, reload
Pick yourself up and dust yourself down
Reload, reload
Pick yourself up and dust yourself down
