# Anthem (feat. Camille)

## Brookes Brothers

Loving isn't easy
But we were meant to be, babe
So I keep running at night 'till I get to you
And when it gets lonely
Lost in the pro, baby
I'll be praying at night just to get me through

And when the beat goes up
I wanna see you put your hands up
Let everybody in here to know
'Cause baby this is our anthem
We've been waiting for so long
But now the heartbreak is over
So let me hear you say oh oh oh
'Cause baby this is our anthem
And when the beat goes up...
And when the beat goes up...

Baby, you're the now
And I'm the never ending head
We come together, then we spread
Just for me and you...
Bombs explode, world night shatter
But we know that nothing matters
And let go, it's all I wanna do
---
