Making a Monster

Blitzkid

Born into this world the sum parts of a man
Created through experiments from scientific hands
And though I live and breathe I cannot understand
With the mind of a child, if this is what they planned
Look upon me then hide away your face
I am unlike you yet still I need a place
Within society where I can still be safe
From all the ignorance of the "human" race(chorus)
I can try, I still don't know why
They wanna lock me away
From all I've seen, it makes no sense to me
They make a monster everyday(repeat 1st verse)
(chorus)
They make a monster everyday
They make a monster everyday
They make a monster everyday
They make a monster everyday
