

# Lights Out

## Room 94

Take me, to the other side  
Tell me, what it feels like  
I got lost in the atmosphere  
Come a little closer, whisper in my ear.  
Flashback to the other night  
You blew up like dynamite.  
Tiger blood running through my veins  
Come a little closer, I forgot your name.  
(Come a little closer, I forgot your name)  
(Come a little closer, I forgot your name)  
I know what you're like when the lights go out  
You come alive when the lights goOut  
You got me  
Out  
You got me  
I know what you're like when the lights go out  
You come alive when the lights go  
Out  
You got me  
Out  
You got meSparks fly like fireworks,  
Missed calls I never heard,  
I saw you in a crowded room,  
Come a little closer 'cos I like the view,  
I'll take what I can get,  
I can tell that you're into it,  
Red dress hiding all your red dress sins,  
Come a little closer, What a mess we're in  
I know what you're like when the lights go out  
You come alive when the lights goOut  
You got me  
Out  
You got me  
I know what you're like when the lights go out  
You come alive when the lights go  
Out  
You got me  
Out  
You got meYour ghost keeps haunting me,

I'll wait and smile anxiously,  
Stop pretending I'm your everything,  
Stop pretending I'm your everything.  
I know what you're like when the lights go out  
You come alive when the lights go Out  
You got me  
Out  
You got me I know what you're like when the lights go out You come alive when the lights go  
Out  
You got me  
Out  
You got me
