

# To the Metal (Remastered)

## Gamma Ray

Coming from the streets  
Fists up in the air  
Generating heat  
They come from everywhere  
Hail Fists are made of iron  
Bodies made of steel  
Dancing on the razor  
Metal is the deal  
Hail We came to feel the thunder  
The lightning and the heat  
We came to hail the metal gods  
Banging to the beat, singing Hail, to the metal, hail  
Singing, "Hail heavy metal"  
Hail The power in the music  
Arising in us all  
We're never gonna lose it  
We're proud and standing tall  
Hail, I said, "Hail" If you just cannot feel it  
You'll never understand  
There's nothing's gonna beat it  
Metal rules the land  
Hail We come to feel the thunder  
The lightning and the heat  
We came to hail the metal gods  
Banging to the beat, singing Hail to the metal, hail  
Singing, "Hail heavy metal"  
Hail, hail Hail heavy metal, hail  
Hail heavy metal, hail  
Hail heavy metal, hail  
Hail to the metal  
Heavy metal, hail Hail to the metal  
Heavy metal, all hail  
Hail to the metal  
Heavy metal all hail Hail to the metal  
Heavy metal, all hail  
Hail to the metal  
Heavy metal, all hail
