Romeo

Juliette Lewis

Across the sea
Where the night dances
You followed me
Youre the only one
I believed
The washed out blue
Of your eyes
Lit up as bright as the sunrise
You were as bright
As the sunriseYou and I underneath the blue light always and forever
This love we steal feels so real always and forever
I keep you insideHand on my heart taking its time pulling me closer to you
I wanna be closer to this feeling
Swimming in your skin again
Swimming in your skin againYou and I underneath the blue light always and forever
This love we steal feels so real always and forever
I keep you insideRomeo oh Romeo where art thou
Under my veil of illusion and strife whats become of all our young life
Haloed by an unforgiving sun loved by many and ruled by no one
We walked a well worn path skipping rocks into oblivion
My eternal longing wont set me free, my obscure moon and unrelenting seaYou and I underneath the blue light always and forever
This love we steal feels so real always and forever
Ill keep you inside, something to remember
Fast asleep we give up our dreams, always and forever
Ill keep you Ill keep you inside
