Let's Go Dancing

D' Luxe

Our minds run in circles
Racing around the restaurant
We're searching for what more to say
To say what we really wantLet's leave it like it is
And stop staring at these walls
Let's not go headlong to that distance
Where you can't come back at allLet's go dancing
Waltz around the rumor mill
In your faded dress with the daffodils
Let's go dancing, let time stand stillOnce your name was but a whisper
A simple wish upon my tongue
And staring at your shadow
Like staring at the sunAnd in this dark, dark hour
You still illuminate a room
Oh, God give us the power
We gotta keep ourselves in tuneLet's go dancing
Waltz around the rumor mill
In your faded dress with the daffodils
Let's go dancing, let time stand still
Let's go dancing, let time stand still
