

Head In Hands

Valencia

Well I'll be saving my breath for another year.

I'm wasting my time.

I'm coming clean to you on how I'm always catching up.

Yeah I'm still chasing my heart down 95.

It's a fucked up way to live your life when you are stuck always catching up.

So I'll come clean to you. Head in hands I'm fine, and I've been fighting the words it just isn't worth my time.

It's not a way to die. Suffocated by stress, my life is a mess, it's not right.

Head in hands we climb. Separated by faith, it got in the way of this life.

Of all the ways to die, suffocated by stress, my life is a mess, it's not right. Yeah I've been clearing my head
trying to get some sleep,

and all these overloaded thoughts crashed down on me.

It seems that this is just not good enough.

I'll come clean to you. Head in hands I'm fine, and I've been fighting the words it just isn't worth my time.

It's not a way to die. Suffocated by stress, my life is a mess, it's not right.

Head in hands we climb. Separated by faith, it got in the way of life.

Of all the ways to die, suffocated by stress, my life is a mess, it's not right. Well this is the calm before the storm.

It's getting harder then it has before.

Sometimes you've got to walk in the rain

if you're dying to find what you're looking for.

Dying to find what you're looking for. Head in hands I'm fine, and I've been fighting the words it just isn't
worth my time.

It's not a way to die. Suffocated by stress, my life is a mess, it's not right.

Head in hands we climb. Separated by faith, it got in the way of life.

It's not a way to die. Suffocated by stress, my life is a mess, it's not right.
