Bus Ride

Alex Lloyd

Like morning will keep us
Locked in our arms
And roses for weepers
Not easy to charmOutside theyre waiting
The people in white
And I am not a foolIf you want to take the world on now
I will be right there beside you
And if you want to sleep the whole day through
I will be right there beside youSo get on that bus now
And ride it on home
Lone in the back seat
With no telephoneAnd I am not a foolIf you want to take the world on now
I will be right there beside you
And if you want to sleep the whole day through
I will be right there beside youIf you want to take the world on now
I will be right there beside you
And if you want to sleep the whole day through
I will be right there beside youIf you want to take the world on now
I will be right there beside you
And if you want to sleep the whole day through
I will be right there beside you
