

So Down On

Rival Schools

You can blame this fall on some
 Invitation to your friend
When she promised that she'd come
 You could wait until the end
 Now you want it all too soon
 Just to calm what's on your mind
 'Til she calls it off again
To the wayside Yesterday is left behind
 It's as close as you might get
 'Til she calls you all the time
 She calls so you can get
 Down
 On Not adjusted to begin
As you lay with your concerns
 Are we better off as friends?
 Either way it burns
 Now you want it all too soon
 Just to calm what's on your mind
 'Til she calls it off again
To the wayside Yesterday is left behind
 It's as close as you might get
 'Til she calls you all the time
 She calls so you can get
 Down
 On
 So good so far
 So down
 On You said "I'm lost instead"
But that's all in your head Yesterday is left behind
 It's as close as you might get
 'Til she calls you all the time
 She calls so you can get
(So good so far) Yesterday is left behind
 (Yeah)
 It's as close as you might get
 (So good so far)
 'Til she calls you all the time
 She calls so you can get
 Down

On
So good so far
Down
On
So good so farSo down
On
