

# True Love

Charlie Rock

I met the girl of my dreams today  
Now my heart is back in place  
I will never be alone again  
Baby, baby  
Now I know how true love feels  
Since you came into my life  
No more tears will fall from my eyes again  
Baby, baby  
Chorus:  
True love is lighting up my life  
True love, I can't deny it  
True love, you're the girl for me  
You're the girl for me  
Repeat(1x)When you came into my heart  
You made every dream come true  
And its all because of you my love  
Baby, baby  
You're like an angel in disguise  
You're the only one for me  
Now I know you've made my life complete  
Baby, baby  
Chorus(5x)
