

# Electric Light

[Eamon harkin](#)

People tell me I'm far too obsessed but they don't  
Understand how it feels to be me and I won't  
Be told by others what I shouldn't like  
I just feel right when I let myself go  
It can feel me with pride and excitement inside  
Such a thrill to be filled with the joy and delight  
How could anyone not feel the same?  
Oh, they don't see...  
That there is something on my mind  
It is a world they leave behind  
And it will always draw me closer  
I want electric light  
That flashes away

I want my heels sky high  
I can't run away  
And I say uhh, ahh and baby come play  
And I know just why I wanna stay  
'Cause on a disco night everything is all right  
All the time I pretend to be into something  
That I don't really like or connect with at all  
Just to please someone's credible mind  
But that ain't me  
'Cause in my heart I'm someone else  
And it's been true since I was twelve  
And baby now I'm singing my song.  
I want electric light...
