

# Rock 'N' Roll Is Free

**Ben Harper**

Say goodbye to tomorrow  
And hello to today  
Take a look at your world  
In a brand new way  
The masters of convention  
Count on you to never change  
But the laws of reinvention  
Know nothing stays the same  
Rock n' roll is free if you want it  
Rock n' roll is free so come and get it  
Rock n' roll is free if you want it  
Free if you want it  
Free if you want it  
They're crying in the alleys  
Screaming in the streets  
With a dignity amongst thieves  
You don't have to answer  
If the question isn't clear  
May not know where I am  
But I'm glad it's here  
Rock n' roll is free if you want it  
Rock n' roll is free so come and get it  
Rock n' roll is free if you want it  
Free if you want it  
Free if you want it  
Free if you want it  
Free if you want it  
Say goodbye to tomorrow  
And hello to today  
Take a look at your world  
In a brand new way  
Pick the price you want to pay  
If you think you should  
But I have heard the news  
And the news is good  
Rock n' roll is free if you want it  
Rock n' roll is free so come and get it  
Rock n' roll is free if you want it  
Free if you want it  
Free if you want it  
Rock n' roll is free if you want it  
Rock n' roll is free so come and get it  
Rock n' roll is free if you want it  
Free if you want it  
Free if you want it
