My Demise

Mikey Duran

I wish I had the heart to tell myself that I'll be well enough to when the weather of this storm
but I know that all the answers lie inside of each our little lives but plus I'm better I am sure

She makes the blue shine bright in my eyes,
I feel my own heart break when she cries,
how in the hell did I not realize
that even her would lead to my oh my
she makes the stars light up the sky
she gives the song bird a reason to fly,
So it doesn't come to me a surprise
that even her would lead to my oh my demise

I know that time would only heal but there are things I can't conceal its hard to teach myself to begin

She makes the blue shine bright, an when she breaks I cry, so it is no surprise that even her was my demise

She makes the blue shine bright in my eyes,
I feel my own heart break when she cries,
how in the hell did I not realize
that even her would lead to my oh my
she makes the stars light up the sky
she gives the song bird a reason to fly,
So it doesn't come to me a surprise
that even her would lead to my oh my demise

That even her would lead to my oh my, my oh my, my oh my.....demise.ï»¿
