I Will Never Let You Go Again

Eddie Rabbitt

I'm glad we got it today
And got back together again
'Cause I was hurtin' for you
My nights, I thought they'd never endAnd girl, I've pain in my mind, time after time
For the fool that I've been
I can't live without youAnd I will never let you go again
I lost you once, my world came to an end
Time stood still, and I missed you, girl
And my heart just wouldn't mend
And I will never let you go againI'm glad I woke up in time
Before I lost you all away
I don't know what I'd have done
If you hadn't come back todayI don't know what made me think that I could go on
Without you by my side
It's no good without you
I just can't live without youAnd I will never let you go again
I lost you once, my world came to an end
Well, the nights were long, and I missed you, girl
And my heart just wouldn't mend
And I will never let you go again
No, I will never let you go again
I lost you once, my world came to an endTime stood still, and I missed you, girl
And my heart just wouldn't mend
And I will never let you go again
