

# Send Down

## Jawbox

i've got this syllable sickness  
called the six-second blues  
no doubt quixotic talk has been subsumed  
send down one last time  
that last send down didn't cut it  
send down one last time  
breathe in deep and then you shut it  
i danced with serial madness  
bend down and scraped the ground  
if this series has a pattern, i foun it
