Stop the Fucking Car

Circa Survive

don't be alarmed
I feel we're falling back to grounddon't be afraid
I hear in every word they say
that even if you don't look back
be sure and find out who was there
and what they wore
and ten more reasonsdon't be alarmed
I feel we're falling back to groundyour face is light and cocaine white
your face is light and cocaine whitemisleading at most
im supposed to
imposter a new you(imposter a new you)
and even if you're woken up
keep contact both at once
we've made mistakes like thisand I'm just learning (and I'm just learning)spinning lights, don't be scared
you have given so much more
spinning lights, take me there
he has risen, pull me underdon't stop talking to me, I haven't been listening
don't stop talking to me, I haven't been listeningthis operation's been abandoned once again
this operation's been abandoned once againcut me gently, cut me out, of mind
cut me gently, cut me out, of mind
cut me gently, cut me out, of mind
cut me gently, cut me out, of mindSpinning lights, don't be scared
you have given so much more
spinning lights, take me there
he has risen, pull me underdon't stop talking to me, I haven't been listening
don't stop talking to me, I haven't been listeningthis operation's been abandoned once again
this operation's been abandoned once againcut me gently, cut me out, of mind
cut me gently, cut me out, of mind
