

Kinda Cool Ain't It

Povertyneck Hillbillies

I never expected it to feel like this
'Cause first dates, they usually don't
But I felt connected from the moment you walked in
It's like you're someone I've always known
And I could sit here and talk to you all night long 'Cause you're so easy going, conversations flowin'
Something's growing here in this heart of mine
And I'm feelin' dizzy, a little weak kneed
When you're with me and I don't know if I can explain it
It's kinda cool, ain't it? I'm not tryin' to move too fast
I've always heard it's best when you take it slow
And girl, I'm dying just to take you by the hand
And dance with you all night, right here on the patio
I guess, I just feel the need to hold you close 'Cause you're so easy going, conversations flowin'
Something's growing here in this heart of mine
And I'm feelin' dizzy, a little weak kneed
When you're with me and I don't know if I can explain it
It's kinda cool, ain't it? And girl, it looks like I just read your mind
Well, I know how you feel 'cause I've been feelin' it all night You're so easy going, conversations flowin'
Something's growing here in this heart of mine
And I'm feelin' dizzy, a little weak kneed
When you're with me and I don't know if I can explain it
It's kinda cool, ain't it? Baby, don't you know
I never felt this way before, no
Baby, ain't it cool?
